

September 27, 2023

I am writing to enthusiastically recommend Sellers General Construction. As a witness to their exceptional work firsthand, I can confidently attest to the outstanding quality and professionalism they demonstrated while building Carolina Shores Acceleration Academy.

From the outset, Sellers General Construction exhibited a level of dedication and expertise that set them apart from other construction firms. Their commitment to delivering a top-notch facility for our students and staff was evident throughout the entire construction process. Here are some key points that highlight their exceptional performance:

**Superior Craftsmanship:** The quality of construction displayed by Sellers General Construction is nothing short of exceptional. The school they built for us showcases impeccable craftsmanship and attention to detail, making it a source of pride for our community.

**On-Time and On-Budget:** Sellers General Construction consistently met project deadlines and adhered to the budget, ensuring that there were no unforeseen delays or cost overruns. Their meticulous planning and project management were truly commendable.

**Clear Communication:** Throughout construction the Project Manager, Kevin Lovett, maintained open and transparent communication with our school. They were always responsive to our questions and kept us informed of progress, mitigating potential issues before they could become major roadblocks.

**Post-Construction Support:** Even after the completion of the project, Sellers General Construction has been responsive to any minor issues that have arisen, promptly addressing them to our satisfaction. They ensured we were 100% satisfied with everything and gave us a warranty on their workmanship.

In conclusion, I cannot overstate the excellence and competence of Sellers General Construction. They have delivered a state-of-the-art educational facility that will benefit our students and community for generations to come. I wholeheartedly recommend Sellers General Construction for any future construction endeavors.

Sincerely,

Dan Miller, LISW-CP  
Director of Facilities and Operations
